

REJUVENATION®

Rejuvenation Bar Code Stickers Location:

- When the master carton (MC) quantity is NOT equal the distribution lot (DL) quantity: Rejuvenation bar code stickers to be applied on the individual inner cartons or plastic bags (depending on the packaging configuration).
- When the MC/DL qty is 1/1: Rejuvenation bar code stickers to be applied on the master carton together with Carton Marking.

Rejuvenation Bar Code Stickers Template:

Bar codes must follow the following guidelines.

1. **Label size:** Approximately 2" wide x 1" high (preferred). Label sizes may be adjusted if the carton panel is too small for the label.
2. **Label Font:** Calibri, 8 pt. minimum
3. **Barcode Font:** BC C39 2 to 1 Narrow, Size 36
4. **Printed information:** The following information is to be printed legibly in English on all carton labels per the diagram below. Vendors should not stencil or pre-print carton label information on cartons.

Description Field - RJV item description as indicated on Purchase Order.

- Use upper and lower case
- Limited to 60 characters

Color Field - RJV item color description as indicated on Purchase Order.

- Color field is not printed if not specified on the Purchase Order.
- Color field is separated from Size field by two spaces.

Size Field - RJV item size description as indicated on Purchase Order.

- Size field is not printed if not specified on the Purchase Order.
- Size field is separated from Finish field by two spaces.

Barcode Field - Item bar code number to be provided by RJV.

- Bar code is unique to item number, color and size.
- Font: BC C39 2 to 1 Narrow Size 36
- **Important:** bar code number is different from the sku number.
- Bar code number is available on the vendor's specs (see example below – highlighted in yellow)
